

Medical Certificate & List of Appointed doctors

A medical certificate is required by the Belgian law to ensure that the applicant does not have a disease that could endanger public health in Belgium.

1. Requirements

- The medical certificate should be drawn up **max. 6 months** before the date of submission of the visa application.
- The medical certificate should be drawn up preferably by an **appointed doctor** (see *point 4*: “List of appointed doctors”).
- The medical certificate should attest that the applicant does not have a disease that can endanger public health.

2. Format

- Applicants for a single permit (combined work and stay permit): please contact the competent regional government in Belgium.
- Applicants for other purposes of stay: please refer to the [English website of the Belgian Immigration Office](#)

3. Legalization

- Appointed doctors:
The signatures of the medical doctors listed under *point 4*: “List of appointed doctors” do not need any legalization, apostille or stamp by the embassy. Please submit it to the competent Belgian authority as it is issued.
- Not-appointed doctors:
If you go to any doctors or Red Cross Hospitals not listed below, the medical certificate has to be **legalized by means of an Apostille** at the Ministry of Foreign Affairs of Japan (more details on the procedure can be found on the [website of Ministry of Foreign Affairs of Japan](#) Once the Apostille is obtained, submit the medical certificate (with its Apostille) to the competent Belgian authority. Note that the stamp of the embassy is not required, therefore the Embassy will not stamp any medical certificate.

4. List of appointed doctors

HOKKAIDO

Hokko Memorial Clinic

Dr. SAKUMA, Ichiro

Address: N-27, E-8, 1-15, Higashi-ku Sapporo Hokkaido 065-0027

Phone : 011-722-1122
